SUMMARY

Results-driven software developer with hands-on experience across front-end & back-end development, UI/UX design, and technology integration. Adept at implementing industry best practices to build scalable, maintainable, and high-performing web applications. Proven ability to deliver projects from concept to completion.

SKILLS

Languages: Java, JavaScript, HTML/CSS, C#, NodeJS, C/C++, SQL
Libraries & Frameworks: ReactJS, React Native, ExpressJS, Spark Java, Bootstrap, SCSS, Socket.IO, Material-UI
Tools & Platforms **:** Bash, Git, Github, AWS, Nginx, Apache Server

EXPERIENCE

Produce Team Member | Whole Foods Market

May 2023 - Present, Seattle, WA

- Maintain and operate the department at 100% capacity in critical circumstances resulting in 33% operating cost savings.
- Instruct and supervise six new team members to ensure seamless onboarding process.
- Award Employee of the Month by store leadership for operational excellence and self-responsibility.

Software Engineer Intern | Xemelgo

October 2019 - March 2020, Bellevue, WA

- Implemented and managed a new job tracking feature, streamlining customer access to real-time labor hour data.
- Successfully designed and deployed DynamoDB tables and RESTful APIs on AWS through utilization of Serverless framework.
- Conducted simulation and testing on Android and iOS platforms, resulting in a successful prototype demonstration to clients within a tight deadline.

Undergraduate Research Assistant | University of Washington

January 2019 - December 2019, Seattle, WA

- Conducted thorough analysis of data points in a national dataset to identify and rectify incorrect curb data in specific locations.
- Utilized technical skills in NodeJS, ExpressJS, and Turf to create an automated data processing pipeline, eliminating the need for manual data extraction and saving 20 hours per week for the research team.

PROJECTS

Collaborative Whiteboard

https://trevortran.com/whiteboard, December 2023 - February 2024

- Developed and implemented an interactive tool using software development skills to enhance team collaboration and demonstration.
- Successfully facilitated virtual brainstorming sessions, enabling teams to effectively visualize and streamline the creative process.
- Utilized technical skills in HTML, CSS, JavaScript, and ReactJS to optimize performance and enhance user experience.

Portfolio Website

https://trevortran.com, December 2023 - January 2024

- Developed a responsive personal portfolio website to showcase software development projects, resulting in increased visibility and engagement.
- Enhanced website performance and usability by implementing SEO best practices to achieve over 1400 daily requests.
- Engineered and deployed a robust portfolio website on AWS EC2 instances with auto-scaling configuration behind an Elastic Load Balancer, achieving 99.99% uptime and enhancing security, thereby ensuring seamless user experience even during high-traffic periods.

EDUCATION

Bachelor of Computer Science | University of Washington (UW)

Seattle, WA, 2020

CERTIFICATIONS

Full Stack Java Developer | Per Scholas

2024

AWS Certified Developer - Associate | Amazon Web Services

2023
